## OUR CUSTOMER

## Trusted by Industry Leaders

## OUR EXPERTISE

## Comprehensive Automation Services

We provide end-to-end automation solutions tailored to your industry's unique requirements.

### PLC Programming

Expert programming for Siemens, Allen Bradley, Mitsubishi, and Delta PLCs. Complete ladder logic, structured text, and function block development with comprehensive testing.

### Control Panel Manufacturing

Custom-designed control panels built to international standards. Complete with wiring, testing, and documentation. Quality components from trusted brands.

### SCADA Development

Real-time monitoring and control systems with intuitive interfaces. Data logging, trending, alarm management, and remote access capabilities.

### VFD & Servo Integration

Energy-efficient motor control solutions. VFD programming, servo system integration, and precision motion control implementation.

### Industrial IoT Solutions

Industry 4.0 ready automation with cloud connectivity, predictive maintenance, and advanced analytics for smart manufacturing.

### Maintenance & Support

Comprehensive AMC packages, emergency support, troubleshooting, and system upgrades. Keep your operations running smoothly 24/7.

Leading provider of industrial automation and PLC control solutions. We are authorized dealers of OMRON, Mitsubishi, Pro-FACE, Autonics, SIEMENS, YASKAWA, Schneider, Crompton, and Leuze.
